

Exploring, Developing, and Improving Programs of All-Inclusive Care for the Elderly (PACE)

CareVention HealthCare™
Consulting Services

Why CareVention HealthCare Consulting Services?

With more than 100 years of combined PACE experience, our team is uniquely positioned to partner with your organization. Our expertise includes program leadership, administration, operations, clinical care, marketing; and regulatory oversight. CareVention HealthCare Consulting's collaborative approach, coupled with our relationship-focused customer service, helps position your PACE program for success.

Our Services

CareVention HealthCare Consulting offers a full suite of services and support for pre-operational and operational PACE programs. We understand the complexity of the PACE model and recognize the uniqueness of each organization, and we tailor our services to meet your organization's needs.

Exploring PACE:

Is PACE a strategic fit for your organization?

- State compatibility assessments
- Market analysis
- Financial feasibility studies
- Strategic planning

"CareVention Consulting's Technical Assistance Center (TAC) services are exceptional! Our first work order for RFP and feasibility study was a lot of work with little time. Due to your hard work and information provided to the state, we were awarded all the counties we requested."

Laura Lyons, RN | Executive Director
LIFE-Northwestern Pennsylvania

“Launching and sustaining a PACE program can be a daunting task due to all the complexities of the model, but the CareVention team not only made it possible for us to open this program—they also have helped us thrive! We have great confidence, joy, and pride in our program because CareVention has been with us every step of the way.”

Samantha Black, Executive Director, TRU PACE
Executive Director

Developing PACE:

*Do you need guidance to open
a PACE program?*

- Application preparation and submissions
- Part D application and submissions
- Provider network development
- Enrollment projections and planning
- Operational framework design and implementation
- Interdisciplinary training and support
- Emergency preparedness program development
- Readiness review preparation and support

Improving PACE:

*Are your current processes
efficient and effective?*

- Remote audit preparation and support
- Clinic assessments
- Expansion and growth
- Marketing and enrollment
- Workflow optimization
- Palliative and end-of-life
- Transportation
- Ongoing training and support

Consultation services are provided both on-site and remotely. Remote consults can include virtual training, emails, conference calls, and telephone support.

About Us

CareVention HealthCare Consulting provides national expertise and guidance for organizations looking to explore, develop, or improve PACE programs. We partner with organizations that seek to understand the PACE model and the feasibility of opening programs, and help navigate the complexity of the PACE application and development processes from the ground up. We also assist operational programs to improve efficiencies.

Our unique approach and passion for the PACE model help position your organization for success, regardless of its size or needs.
