

CareVention HealthCare™ Consulting Services

Your Challenge:

Learning the PACE Model as
a New Medical Director or
Provider

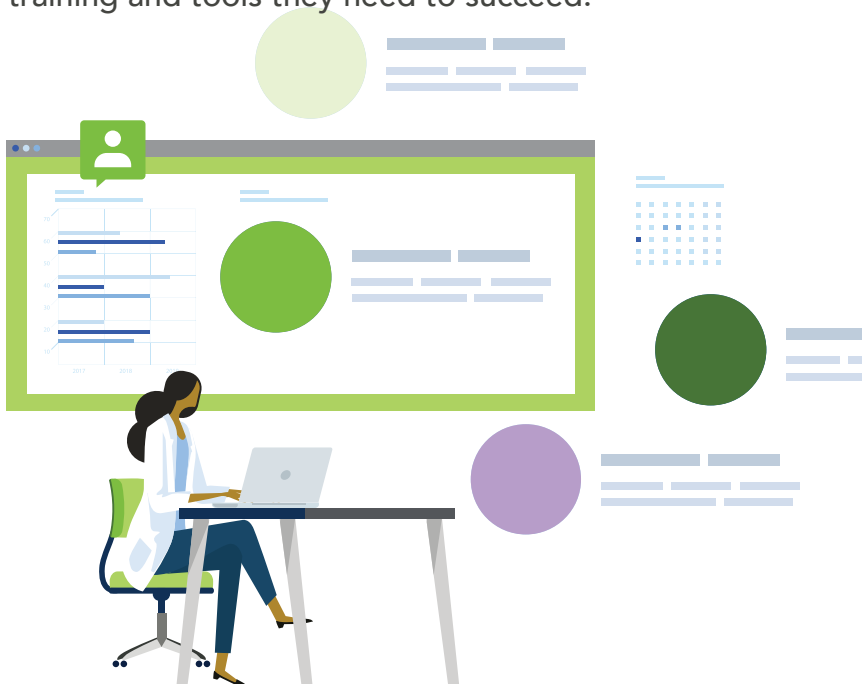

Your Solution:

Medical Director and
Provider Orientation Training

CareVention HealthCare Consulting's Medical Director and Provider Orientation Training Programs Are Essential If You Are New to PACE

Programs of All-Inclusive Care for the Elderly (PACE) are formed by three-way agreements among PACE organizations, Centers for Medicare & Medicaid Services (CMS), and State Administering Agencies (SAA). PACE is a unique model and subject to detailed government regulations. Often, PACE providers are faced with clinician and health plan-related roles and responsibilities that require highly specific knowledge and skills to ensure success.

Our physician-consultants deliver timely, comprehensive education and customized training for PACE medical directors, physicians, nurse practitioners, and physician assistants. We help ensure providers have the proper training and tools they need to succeed.

"As a new PACE provider, Medical Director Training provided knowledge and skills to efficiently step into my new leadership role. It was so helpful that I used the PCP orientation portion with all new providers thereafter. At Senior CommUnity Care of Michigan, both Medical Director and Provider Orientation Training have decreased the learning curve for new PACE providers!"

– Elizabeth Hengstebeck, D.O. FACOFP, Medical Director, Senior CommUnity Care of Michigan

"Dr. Wilner is a wonderful teacher!"

– Samantha Black, LCSW, Executive Director, TRU PACE

Medical Director Training

Medical Director Training is suitable for providers new to their roles or those who could benefit from additional training of the PACE model.

- 3-month training program
- Includes 8-12 interactive and customizable live training modules and support
- Topics include:
 - Medical director role, responsibilities, and best practices
 - PACE regulations that impact medical direction and clinical practice
 - Effective use of the PACE model, including optimizing benefits for the participant(s), provider(s), and program
 - PACE revenue model and budgeting
 - Utilization management best practices

Provider Orientation Training

Provider Orientation Training is appropriate for new PACE physicians, nurse practitioners, and physician assistants.

- 8–10-week training program
- Includes 8-12 interactive and customizable live training modules
- Topics include:
 - PACE as intensive primary care covering the PACE model of care, including philosophy, regulations, and service delivery allocation
 - Assessments, advance care planning, geriatric, and palliative care principles
 - A day in the life of a PACE provider
 - A provider's role on the Interdisciplinary Team (IDT)

Register for Medical Director or Provider Orientation Training Today!

Training is customized:

1. CareVention HealthCare Consulting will collaborate with your PACE organization leadership to conduct a needs assessment.
2. Following the needs assessment process, we will work with you to assemble a training program from our extensive catalog of modules.
3. We establish a training schedule that works for you.
4. Post-training, our physician-consultants provide a summary(s) to your PACE organization leadership team.

CareVention HealthCare Consulting is a National PACE Association (NPA) Technical Assistance Center (TAC) member.

Meet the Physician-Consultants

Our physician-consultants are clinician-educators who have worked in PACE as primary care providers and medical directors.

David Wilner, MD, FACP, AGSF
Senior Medical Consultant

Dr. David Wilner has extensive experience in geriatric and palliative care medicine and medical education. A professor of medicine at the University of Massachusetts Medical School, Dr. Wilner previously served as medical director and vice president of Summit ElderCare, Fallon Health's PACE program in Central Massachusetts, and as coordinator of geriatric medicine training at

St. Vincent's Hospital in Worcester, Mass. He is a past member of the National PACE Association's (NPA's) board of directors and former chair of NPA's Primary Care Committee. Dr. Wilner is board certified in geriatric medicine, hospice and palliative medicine, and internal medicine and is a fellow of the American College of Physicians and the American Geriatrics Society. Dr. Wilner is also a Capstone Risk Adjustment Services team member.

George "Mike" W. Brett, MD
Senior Vice President, Consulting Services and Chief Medical Officer

Dr. Mike Brett has more than 30 years of experience in geriatric medicine and long-term care. Prior to joining Capstone as a consultant in 2014, he served as the medical director for PACE in Southwestern Pennsylvania. As a private practitioner for more than three decades, Dr. Brett specialized in internal medicine and geriatrics and served as medical director for several long-term care facilities and hospice organizations, in addition to PACE. His work

with PACE led to his interest and eventual expertise in Medicare risk adjustment. He is a frequent presenter on topics including polypharmacy in the elderly and risk adjustment.

Indira Kanouka, MD
Medical Consultant

Dr. Indira Kanouka graduated from Aleppo University Medical School and completed her internal medicine residency at Monmouth Medical Center in Long Branch, New Jersey. She is board certified in Internal Medicine and has cared for patients in multiple clinical settings, including Federally Qualified Health Centers, Long Term Acute Care hospitals (LTAC), and PACE. She has

served as a medical director in both the LTAC and PACE programs and has provided education to medical residents, nurse practitioners, and physician assistants in these various settings and roles. Since joining Capstone in 2018 as a medical consultant, Dr. Kanouka provides education to clinicians working in Medicare risk adjustment regarding the optimal identification, diagnosis, and documentation of conditions occurring in the older adult population.
