

Services and Solutions for Every Stage of PACE

Consulting Services

For states or organizations exploring PACE or those starting up, CareVention Consulting™ provides expert guidance from the application process to enrollment and ongoing operations. Services include feasibility studies, applications, operational framework design and implementation, training, remote audit support, and more.

Third Party Administration

PeakTPA™ helps organizations manage the business functions that drive reimbursement revenue and utilization costs, and ensures your organization is compliant with government regulations. Solutions include but are not limited to enrollment management, accounts receivable, claims adjudication, and CMS and state data submissions.

Electronic Health Records and Integrated Technology

CareVention HealthCare EHR/Integrated Technology Solutions™ provides PACE-proven software that supports care planning, mobile services, and health plan management capabilities, TruChart® software is an end-to-end web-based solution offering care coordination and financial management in one system. PACElogic™ provides scalable integrated data, processes, and workflows across the enterprise. Both solutions track measurable outcomes and provide robust reporting.

Personalized Medication Safety Management and Pharmacy Services

CareKinesis® partners with at-risk healthcare organizations to provide personalized medication safety services for individuals with complex medication needs. CareKinesis offers unique adherence packaging and best-in-class Door2Door delivery service to participant homes or PACE centers. CareKinesis pharmacists are 100% board certified in geriatrics and use MedWise® Science clinical decision support tools to reduce medication-related risk while enhancing economic, clinical, and humanistic outcomes.

Risk Adjustment Services

Capstone Risk Adjustment Services ensure PACE and other value-based care organizations remain compliant and optimize revenue. Physician-led training for providers, auditing, coding, and analytics provide greater understanding of the operational nuances that impact payments. Clients typically achieve outstanding returns on investment, enjoy more stable revenue, and feel confident knowing that the risk of noncompliance is low.

Pharmacy Benefit Solutions Pharmastar

Pharmastar™ provides full-service pharmacy benefit solutions tailored to the specific needs of PACE organizations with best-in-class customer support. Pharmastar's goal is to streamline financial, quality, and clinical processes through PACE and Part D focused claims processing and reporting. Pharmastar is a service partner of CareVention HealthCare.

Expect More From Your PACE Partner

“CareVention is the logical comprehensive solution to the many moving parts of PACE program.

Having an integrated approach like CareVention is an essential management tool that allows management and administrative leaders to spend more time delivering the best quality services to the people we are privileged to serve. I highly recommend CareVention to all PACE organizations as a key ingredient in managing PACE.”

Alan Sadowsky, PhD

Senior Vice President, Community Based Services
MorseLife Health System/Palm Beach PACE

“CareVention has really become a part of the Brandman Centers for Senior Care family as we utilize their excellent services.”

Susie Fishenfield, RN, MSN

Executive Director
Brandman Centers for Senior Care

“Launching and sustaining a PACE program can be a daunting task due to all the complexities of the model, but the CareVention team made it not only possible for us to open this program—they also have helped us thrive! We have great confidence, joy, and pride in our program because CareVention has been with us every step of the way.”

Samantha Black, LCSW

Executive Director
TRU PACE
